<i>In re</i> Patent No. 7,918,050 of Sturgeon et al.	:	
Issue Date: April 5, 2011	:	DECISION ISSUING
Application No.: 10/581,533	:	CERTIFICATE OF
Filed: June 1, 2006	:	CORRECTION UNDER
For: METHOD AND APPARATUS FOR	:	35 U.S.C. § 254
EXTERMINATION OF PESTS	:	

This is a decision issuing a certificate of correction pursuant to 35 U.S.C. § 254 and 37 CFR § 1.322.

A review of application No. 10/581,533 reveals that applicant filed a request for correction of inventorship under 37 CFR § 1.48(a) and received notification from the Office by means of a corrected filing receipt that the request had been processed. The patent as published does not reflect the correction of inventorship.

Patent owner submitted a request for a certificate of correction under 35 U.S.C. § 254 on May 27, 2011, supplemented on May 31, 2011 by an appropriately executed declaration naming all the inventors.

In light of the facts and circumstances in this proceeding, issuance of a certificate of correction under 35 U.S.C. § 254 and 37 CFR § 1.322 is the appropriate vehicle to correct this error.

It is further noted, that a copy of the above referenced declaration filed May 31, 2011 in application number 10/581,533 will be accepted if filed in a continuing application along with a copy of this decision.
